Magnet & Gasket

SUPERIOR MAGNETIC QUALITY

MagTech's own in-house recipe is formulated to have greater magnetic strength and better flexibility than the competition. Custom profiles are manufactured with high-quality raw materials, using a unique state-of-the-art magnetization process that provides superior holding power.

Compound, adhesive and magnetization options are available for customization of a wide variety of applications.

Standard profiles are in-stock and available in standard and high-energy.

GASKETS

All of the profiles are available with industry-leading lead times.

Contact us for recommendations for your product's application.

Magnet & Gasket

Magnet and Gasket Specifications

Thickness Range

Range from: .060" to .375" (1.524mm to 9.525mm)

Width Range

0.25" to 3" (6.35mm to 76.2mm)

Formulated to have greater magnetic strength and more flexibility than other thermoplastic materials of comparable flexibility. Magnet strips have custom ID grooves for easy installation. Magnetization options available allows us to customize your project.

Standard Magnet Sizes

.095 X .312

.095 X .375

.105 X .375

.124 X .490

.125 X .375

.149 X .312

Part

MT1210

MT3030

MT4550

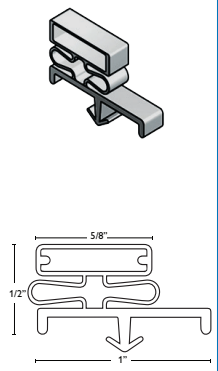

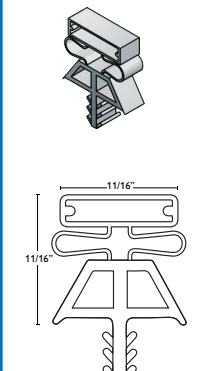

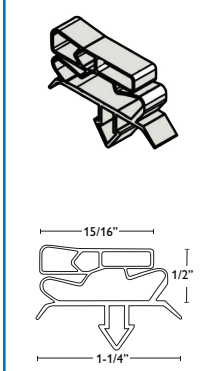

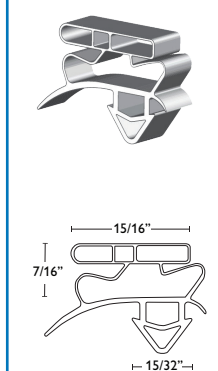

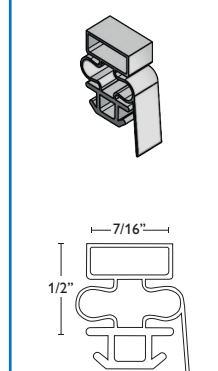

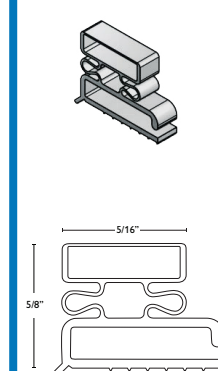

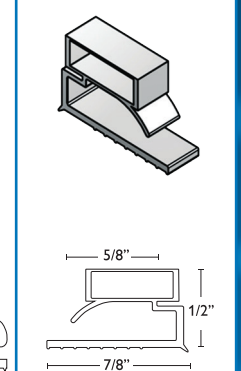

MT1240

MT0070

MT0080

Dart Style Gaskets

More sizes and profiles available. Call for details.

We have custom-built magnetizing equipment to get better pull.

WEATHERABILITY

Possesses great stability in all environments up to 175° F. Excellent aging properties during factory storage. Resists light, ozone and corrosion.

SHIPPING AND PACKAGING

MagTech works directly with trucking companies to ship your product using the most economical shipping method possible. We can package in rolls, bulk on skids, cut blanks in boxes or use personalized packaging for private labeling. Most orders ship within 24 hours.

CUSTOMER SERVICE

We pride ourselves on excellent customer service. We offer genuine, customer-oriented solutions that beat the competition. Rely on MagTech for expert service, convertibility and speed.
